Annotations

This wireframe represents the Category page, where users search via a keyword or words.

- 1 Global Navigation Area
- 2 Breadcrumb indicates user where they are on the website.
- 3 Number of pages, previous, display all, next
- 4 Pagination provides indication to the user with regards to number of displayed items per page. Depending on the number of results returned, users are able to choose how many items to view per page and how to view items that is, list or row format.
- 5 Category Title
- 6 Clear All Search Filters: by clicking this link all previous filtering will be cleared, thus resetting the filtering tools to the default mode.
- 7 Refine Your Search: This will work based on product attributes as well. Results will be grouped by category as default. The user can filtering/sort using the left-hand/ faceted navigation. Each product will display in the same manner as products are on the category landing page quick view. There will be no null results and pre-specified recommendations will be displayed if no matched results are found.
- 8 Filter/Sort by: Once any of the boxes next to its respective filter is being clicked, it will take the user to the respective filtered page.
- 9 Clear: by clicking this link all previous filtering within the respective section will be cleared, thus resetting the filtering tools to the default mode.
- 10 Clicked box: Once filter box gets clicked it turns into a solid color box.
- 11 More/Less button: This button works as a toggle. By clicking it the user is able to see more or less filters.
- 12 Search Entries: The products will be catalogue listed with image, title, reviews, brief description, price, add to wish list, add to cart, click to go to details, quick view.
- 13 Quick Shop button: by clicking on this button, the user will be directed straight to the checkout page.
- 14 Footer Area

Annotations

This wireframe represents the product details page, where users read about the product, decide and start the purchasing process.

- 1 Navigation bar
- 2 Breadcrumb indicates user where they are on the website.
- 3 The page starts by displaying a hero image of the product.
- 4 Name of the Product
- 5 Description of the Product: brief and expandable product description.
- 6 Specifications Key features of products - dimensions, materials, etc.
- 7 See reviews/rating or write a review/rating against rating criteria: Total average ratings for the products as well as number of reviews are shown if these are available. If not, then only 'write a review' is the only CTA available.
- 8 Share this post to social network sites (Facebook, Twitter, Pinterest) and ability to email. Share without Price being shown.
- 9 Photos of designers who used the piece in a room - demonstrate how they used it.
- 10 Swatches: request sample of fabrics.
- 11 Pricing TBD - "To the trade only"; "Log in to view price"; Retail price. Determined if the site will be viewable by consumer.
- 12 Multiple product views: View product from different angles.
- 13 Product in room settings: examples of the actual product in a room.
- 14 You Might Also Like: Related or complimentary products.
- 15 Add to Wishlist: adds product to designers wishlist.
- 16 Print: ability to print product detail page in PDF format.
- 17 Related Content: Related editorial content (video, photo etc.)
- 18 Tips For finding and working with A Designer : tips for a consumer whom is thinking about or is already working with a designer. It directs consumers to companies that can place them with a designer. Applicable if the website is open to consumers and not designers only.

FURNITURE OPTIONS

- 19 Fabric: Fabric allow the user to customize the furniture using 5 - 15 fabric options.
- 20 Finish: allow the user to customize the furniture using 5 - 15 finish options.
- 21 If a customizable option is not available which a designer wants, there needs to be an easy way to contact Kravet - call, email, visit showroom.
- 22 Shop Our Full Product Offering: drill through to edesigntrade in case the customer wants to shop their full product offering.
- 23 Footer Area

Annotations

This wireframe represents the global navigation.

- 1 Company logo
- 2 Primary Navigation: Level 1 Top Menu
- 3 Sub Navigation: Level 2 (Category Pages) and Level 3 (Product pages). Main menu labels will display sub-sections. This provides the ability to include other ways of finding product by category, top sellers etc.
- 4 Breadcrumb: Indicates a page's location in the site hierarchy, and product catalog, and allows users to easily navigate back to higher level pages.
- 5 Utility Navigation
- 5a Designer's Login: This is where designers log in in order to go to their account.
- 5b My Account
- 5c Shopping cart Items saved for purchase.
- 5d My Picks
- 5e Wish List
- 5f Showroom Locations: This is where you can find a location when searching by zip code or by clicking on the interactive map on the Showroom Locations Page.
- 5g Translations
- 5h Email Sign Up
- 5i Search by name or item #.

- 16 Footer Area

Annotations

This wireframe represents the Shopping Cart Items selected for purchase.

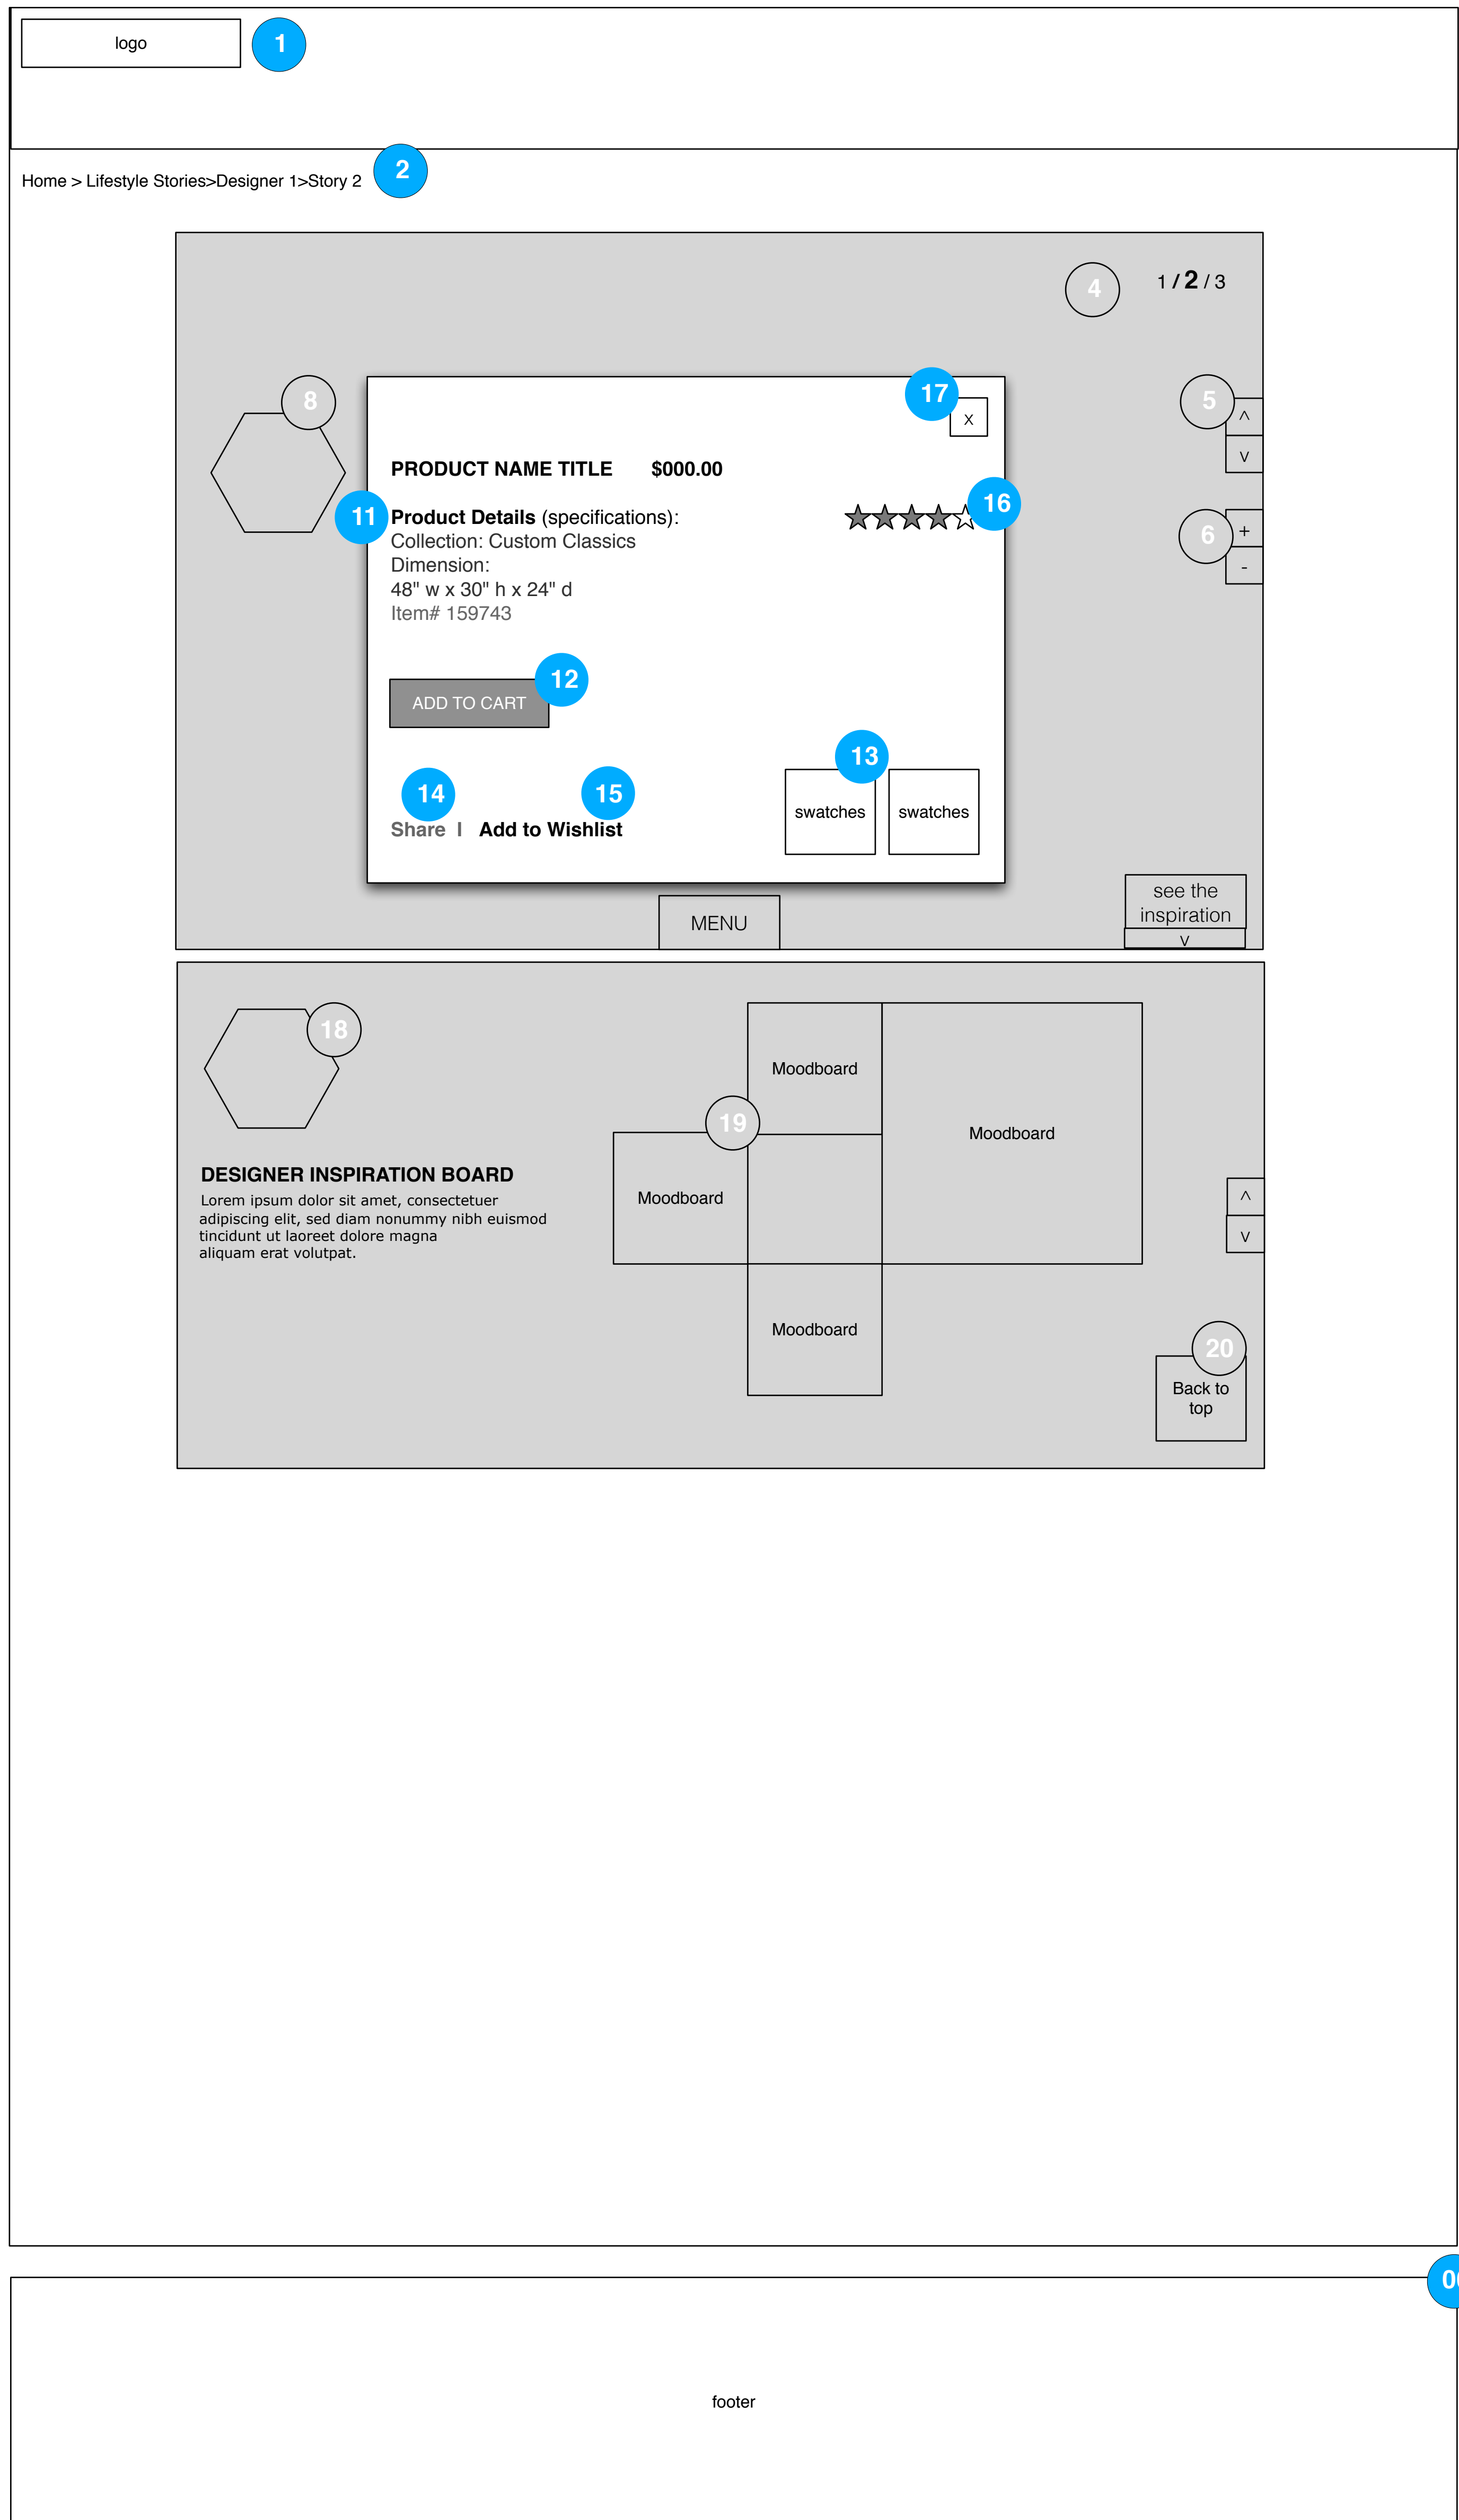

- 1 Global Navigation Area
- 2 Breadcrumb indicates user where they are on the website.
- 3 Mini Shopping Cart: A small interface in header that displays a summary of the user's shopping cart, without the need for the user to navigate away from the current page they are looking at.
- 4 Logged In Checkout User must be logged in to check out.
- 5 Billing Options: Credit Card.
- 6 Shipping Options: Will calculate Shipping Rates - international in addition.
- 7 Email Reminder for abandon Cart: Send an email to user if they abandon shopping cart while checking out. Ask why abandoned cart. Contact again with incentives?
- 8 Verify Order: If an order of a customizable product is over a specific amount (ex: \$10K) some sort of terms need to be digitally "signed" (via initials or full name) by the designer that they agree to all the options selected for the product.
- 9 Checkout button
- 10 Footer Area

Annotations

This wireframe represents the lifestyle detail page, how the user can navigate through products and different stories.

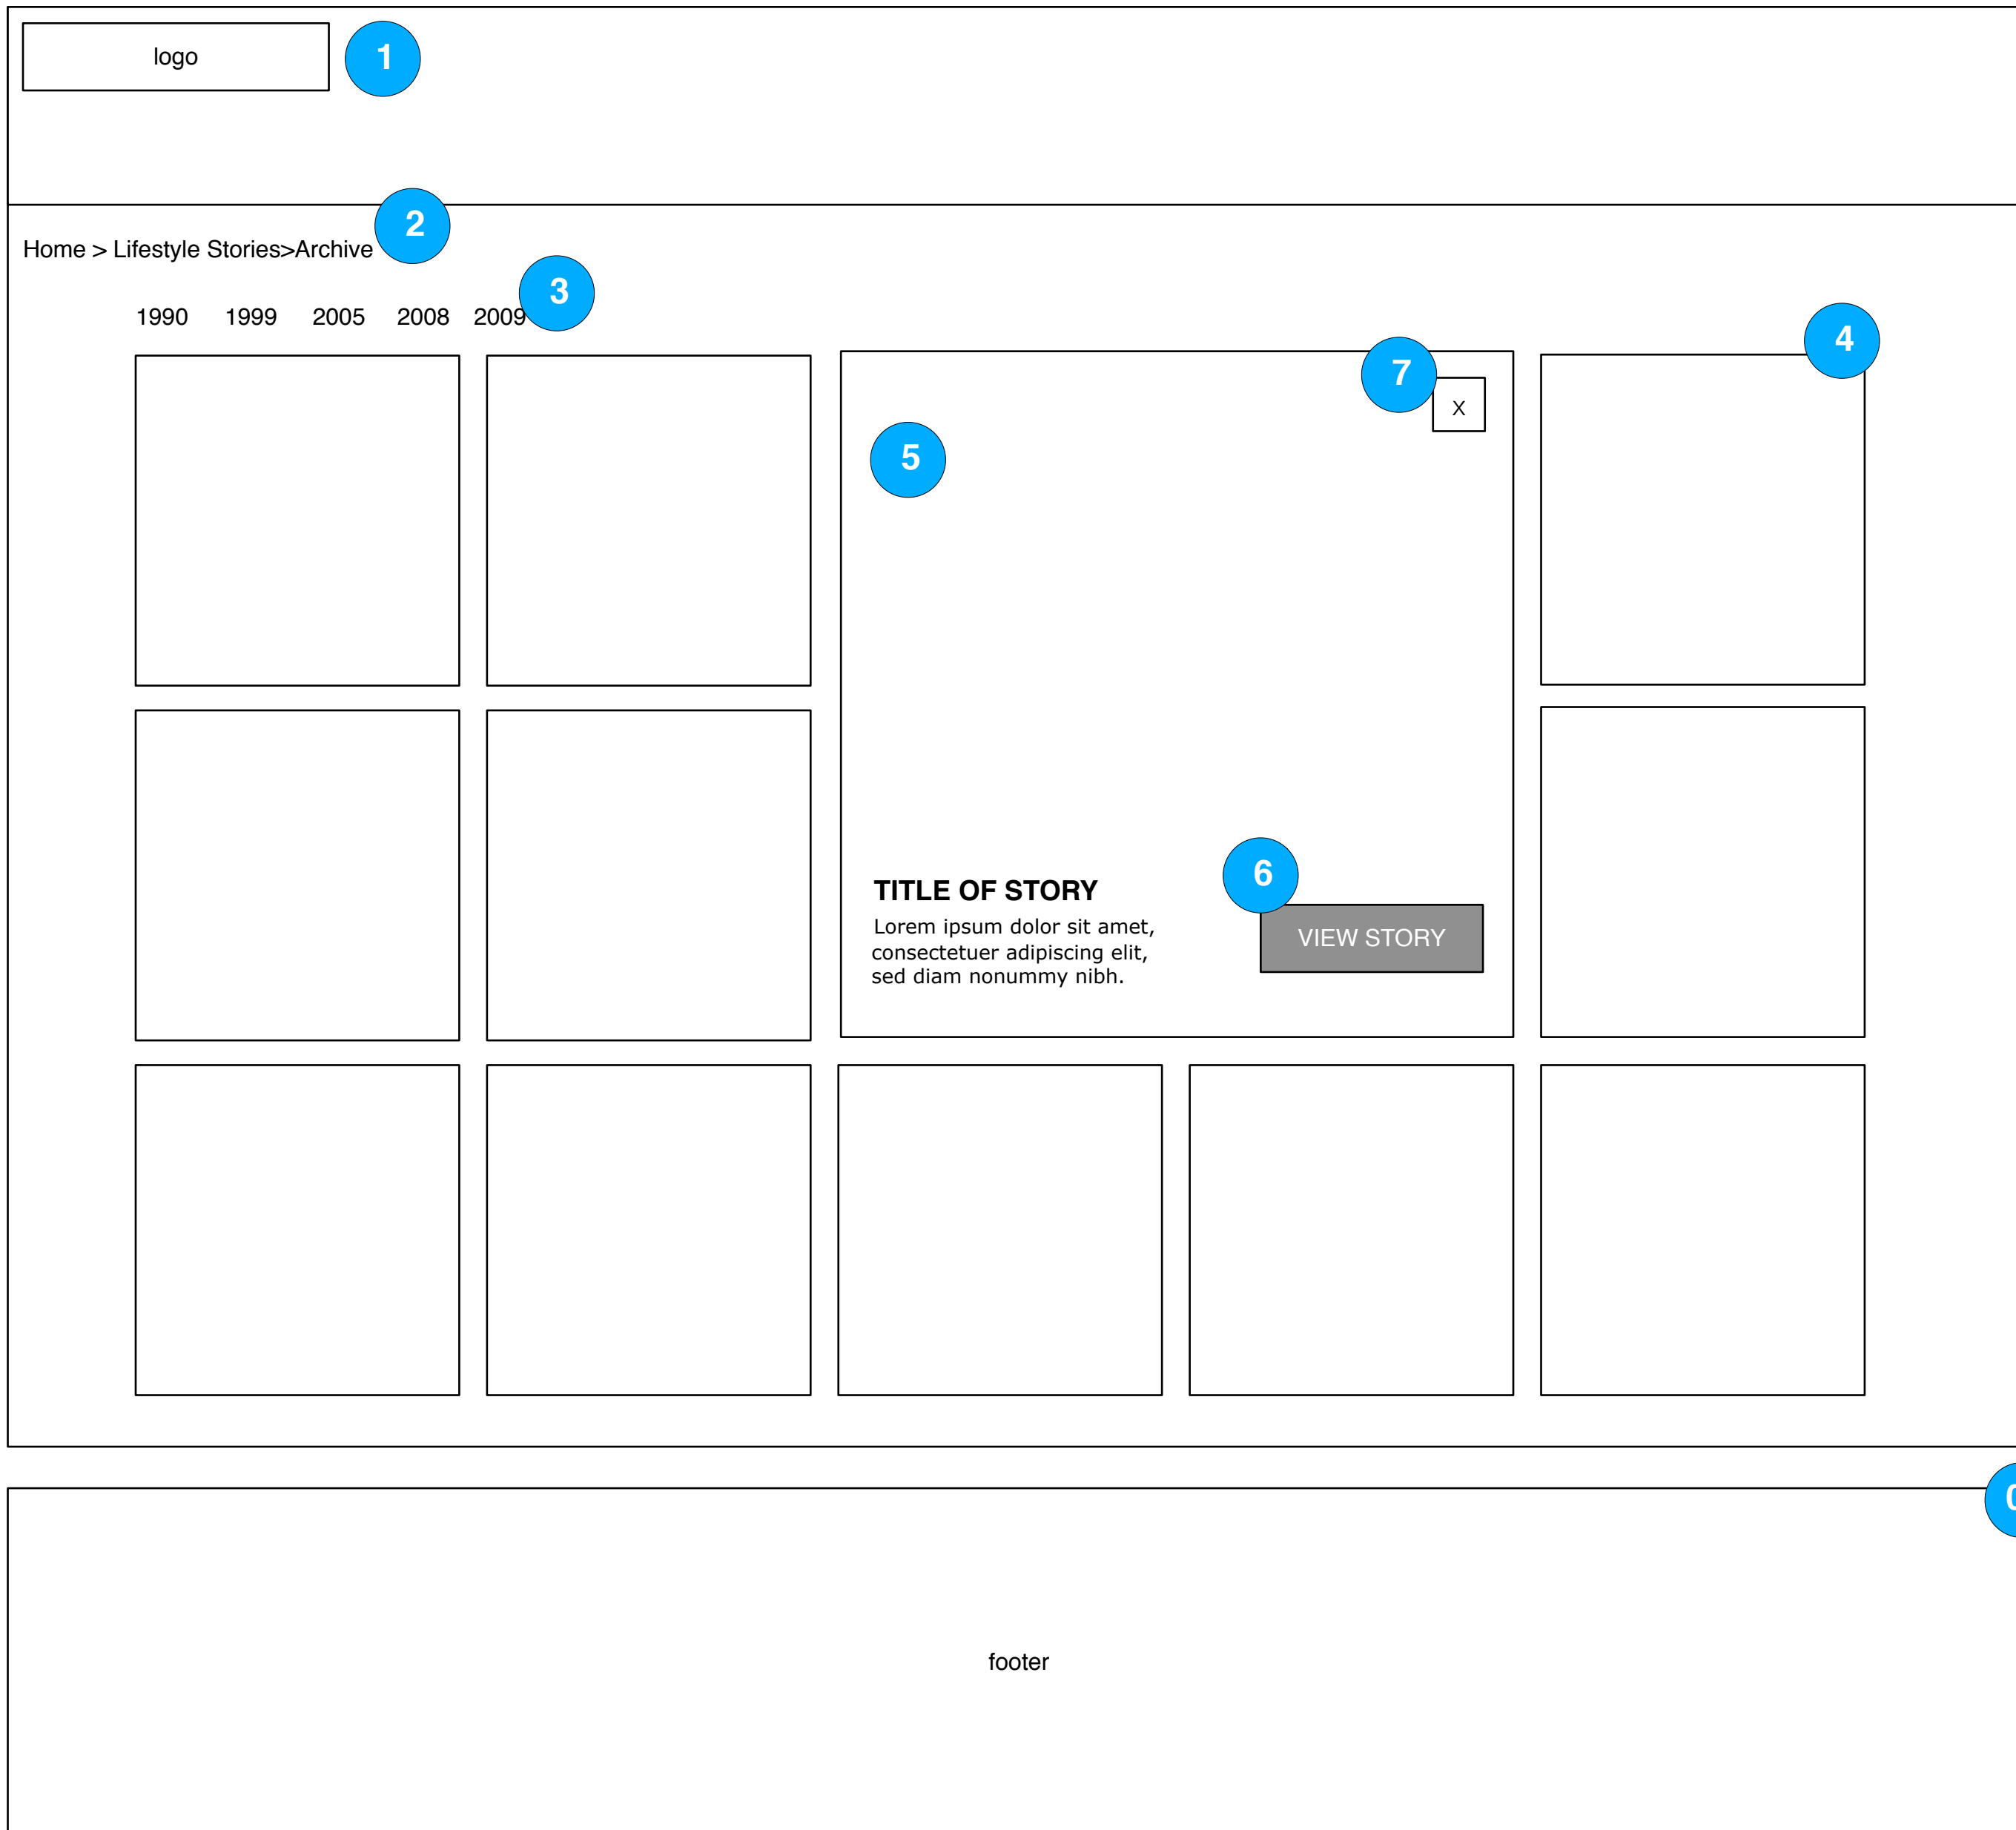

- 1 Navigation bar
 - 2 Breadcrumb indicates user where they are on the website.
 - 3 Title of story with brief description
 - 4 Hero shot of a room. Numbers indicate the story they are on
 - 5 User can look through different views to display different sections. This would essentially continue and could move to the next story.
 - 6 Zoom
 - 7 These points will be for shoppable items, the call outs will be clear enough for the user to understand whats clickable
 - 8 User can click here to learn more about The designer's inspiration. The page will Scroll up vertically to show a grid of imagery the designer has chosen as their inspiration
 - 9 Expand and collapse menu so user can easily go back and forth
 - 10 If there is ever more than 2 designers, this expand and collapse makes it flexible to accomodate
- #11 - 17 to appear in next slide**
- 18 CTA to see designer moldboard
 - 18a CTA to view All items
 - 19 This is linked to the landing page and would live "beneath". A brief description would exist as well.
 - 20 Images of inspirations, possibility to click and zoom
 - 21 Back to top or back to furniture landing
 - 22 Footer
